

HEADSPACE TECHNOLOGIES (PTY) LTD

ABOUT US

Commspace is a commission system specifically developed for independent financial advisers in South Africa. The strength of the system includes automated data capturing, the managing of complicated split and referral commissions and it provides much needed business intelligence at the press of a button. You can have client/provider/product category/etc segmentation – all in an easy to use web based application.

VALUE PROPOSITION

A system that values simplicity and ease of use over complexity and unnecessary features.

Fully-assisted onboarding process, resulting in an operation-ready online account.

Very high service levels and short turn-around times on support requests.

Unlimited, weekly online training sessions at no additional cost.

SERVICES OFFERED

We offer the following options for commission management:

- **Self-service option.** We do the initial configuration and setup and then hand over to the client to self-manage the online commission management account.
- **Fully outsourced option.** The full commission management function is outsourced to us, with the client receiving regular reports and analysis about their commission.
